

Instant Turf Equipment Wash Rack

- Wash -** your turf equipment wherever you choose
- Collect -** and contain all of the wash water
- Recycle -** 100% of all wash water collected is mechanically and biologically filtered.

No construction, No permits.

This wash rack can be up and operating fast! It requires power, water and that is it. No sewer connection is required.

No more clogged wash rack systems. The patented Hydropad has a collection system for grass that completely eliminates grass clogging! And because the entire system is above ground and requires no construction and most often permits are not required. **THIS IS A PIECE OF EQUIPMENT AND NOT A CONSTRUCTION PROJECT!**

This entire wash rack can be LEASED because it's equipment. Lease it just like your turf equipment and golf cars!
