

# Hydroblaster Pressure Washer

## 3/1500-P1, Pneumatic Motor, Cold Water Pressure Washer

The 3/1500-P1 pneumatic driven cold-water pressure washer is designed for extreme duty requirements. Air driven means explosion proof, and the stainless-steel frame was designed for shipboard applications where salt corrosion resistance is a requirement.

### Standard Features

- Up to 3 GPM
- Up to 1500 PSI
- Pressure gauge
- Highly maneuverable tilt back design
- Locking rigid casters
- 75' air supply hose
- 75' high pressure discharge hose
- Hose storage designed into frame
- Stainless steel frame
- Trigger gun and wand with variable pressure and spray pattern nozzle
- Integrated soap container
- Inlet water filter

### Specifications

Volume - GPM (LPM)	3 (11.36dm <sup>3</sup> )
Pressure - PSI (BAR)	100 (6.89)
Air Requirement – PSI (BAR),	50 (3.44)
Shipping dimensions, Inches (cm)	37" (94)H X 28" (71)D X 23" (58.4)W
Shipping Weight, Lbs (kg)	83 (37.6)
