Stationary or Portable

Hydro Engineering Inc.'s approach to manufacturing industrial pressure washers stems from years of creating solutions for unique and difficult applications. Whether your Hydroblaster is a stationary or portable unit, each Hydroblaster is configured for your requirements. The stationary or portable series Hydroblasters are designed for power when you need it and durability at all times. These Hydroblasters are capable of delivering water pressures ranging from 500 to 5,000 psi at 2.5 to 10 gallons per minute. Hydroblasters are built for operation in the harshest of environments and will quickly become your ultimate cleaning system of choice.

Hydro Engineering Inc. offers a wide variety of accessories for your new Hydroblaster including pressure wands, nozzles, soap applicators, and remote equipment stations to name a few. Visit hydroblaster.com today to see what we can provide for you!

Since 1980, Hydro Engineering Inc. of Salt Lake City, Utah has maintained a goal of continuous improvement. We are the premier manufacturer of wash rack systems worldwide!
