

Inspection Ramp and Deck Model 4XT219

Operational wash-down and agricultural inspection ramps provide access to critical areas that require wash-down and inspection. Install on existing concrete wash racks or Hydropad portable steel wash platforms in drive on / back off or drive over configuration.

Optional portable access platform with ladder and rails allow for safe exit and entry back into vehicles.

Standard

- Hydropad Inspection Ramps, pair (drive on back off configuration)
- Inspection deck, 2 pair
- FEA tested to 100PSI tire pressure and 60,000LBS/axle

Options

- Concrete (located) Inspection Ramps, pair (drive on back off configuration)
- Additional sets of Inspection Ramps, pair (drive on/drive off configuration)
- Additional sets of Inspection Decks, 2 Pair
- Portable access platform with ladder and rail
