

RST

Recycled Water Storage Tank

This RST system is an above ground tank that can be used as either a water supply tank or for storage of excess wastewater for Hydrokleen filtration and recycling systems when sewer discharge is not available.

The RST is available in a variety of cone bottom tank sizes. Optional configurations allow the system to accept wastewater, return stored water for use as make up water and to automatically purge settled solids from the tank bottom for treatment. The system can also be equipped with a visual "tank full or empty" and audible alarm system.

Standard features:

- 210 gallon tank
- 120/230 volt, 60 Hertz
- Manual sludge drain

Optional features:

- 500 gallon tank
- 220-volt, 1 phase, 50 HZ, 1-Amp
- High water level indicator beacon
- High water level audible alarm with indicator beacon
- Sump pump discharge
- Automatic interval timed sludge drain

Standard RST 210 gallon

Dimensions, Inches (cm) 34.5" (87.6) L X 34.5" (87.6) W X 96" (243.8) H
Weight, Lbs (kg) 550 (249.5)

Optional RST 500 Gallons

Dimensions, Inches (cm) 59.625" (151.4) L X 52" (132.1) W X 96" (243.8) H
Weight, Lbs (kg) 696 (315.7)
