

# Catwalk – 8’ High Elevated Platforms

## Model 3RH770

When your job requires an elevated work platform, especially for access to operator stations around the perimeter of a Hydropad wash rack, a Hydro Engineering Inc. catwalk is an excellent choice. Systems are available with a variety of wash station options that provide remote control of washing systems and a wide array of wash tools including monitors for high volume de-mucking applications.

Work platforms conform to OSHA standards.
