

Hydrosite

Portable Equipment Storage

Hydrosite Integrated Systems are self-contained portable decontamination systems for military and commercial ground support vehicles, aircraft and other heavy equipment. Hydrosite Integrated Systems include all equipment, components, support sub-systems, and controls to perform selective wash/rinse decontamination and provide wash wastewater management. These systems are designed, manufactured and supplied to optimize the equipment decontamination process at fixed base operations or during deployment or temporary wash operations.

Whether there are permanent utilities: electric power, water and sewer, or no utilities available, Hydrosites are designed to optimize your resources.
