

# Hydroblaster Pressure Washer 4/3000 43E - Pressure Washer for Screen Printers

In 1980, Hydro Engineering Inc. designed the first pressure washers used for cleaning screens in the screen print industry. The Model 43E set the standard for using a pressure washer to speed reclaiming and reduce chemical usage in the screen reclaim process. The 43E is small enough to fit under a washout booth, where limited space is an issue. A special nozzle design filters the smallest of particles from water supplied to Hydroblaster 43E to insure that no screen pinholing occurs in the reclaim process.

### **Standard Features**

Low profile design
Limited Lifetime Pump Warranty
Belt Driven Pump
Trigger Gun
Variable Pressure Wand

15' (4.6 M) High Pressure Discharge Hose Specialized High Pressure Nozzle With Nozzle Filter Insert

## **Optional Features**

50-Hz Motor Longer Hose Lengths Automatic Shutdown Timer Pressure Gauge Hour Meter

## **Specifications**

 Volume - GPM (LPM)
 4 (15.4)

 Pressure - PSI (BAR)
 3000 (207)

 Electric Motor - HP (KW)
 10 (7.46)

Dimensions, Inches (cm) 32" (81) L X 25" (63.5) W X 14.53" (36.8) H

Weight, Lbs (kg) 265 (120)

#### Standard

Volts (60Hz)	230V-3P	460V-3P
Amps (60Hz)	28	14
